Rig Ved

This divine shlok from Rig Ved describes the importance of Fire in life. The holy fire that showers blessings takes lives and inflicts heavy damages to human lives. Thus, every element of nature is worshipped in Indian Culture. In modern times, we have to devise our own ways and means of fending off the hazards caused by the fire. Scientific innovation and sharing of knowledge will work as the blessing to save lives and valuable property.

I am glad to learn that **DV Enterprise** is coming out with a 4<sup>th</sup> **Edition** of "**Fire Industry Directory**" & "Safety Industry Directory very shortly. Hereby, I extend my warmest best wishes to the **DV Enterprise** for such useful publications and I am sure both the publications will be highly useful to all the stakeholders.

#### MESSAGE

With increased urbanization; safety and security have become a major concern and we have to cope up with these challenges. What is foremost important is not to compromise on safety. Besides this, Security, Safety and Fire Protection are the new age necessities for which, we should try our best to create awareness.

We together can leverage and create the capabilities for the citizen and can make our cities secured and buildings fire safe. On this backdrop, the initiative taken by the DV Enterprises to bring out Fire Industry Directory and Safety Industry Directory is praiseworthy. I hope that these directories will be helpful for both fire and safety professionals and the industry and will bridge the gap between manufacturers and buyer segment.

I wish DV Enterprises, all success in their future initiatives.

## **<u>Profile</u>** of the **Institution of Fire Engineers (India)**

### <u>About us: -</u>

The Institution of Fire Engineers (India) was established on the recommendations of the standing Fire Advisory Council constituted by the Chiefs of Fire Services in India and headed by DG, NDRF & CD, Ministry of Home Affairs, Govt. of India. The Institution was founded in the year 1973 as a premier non-government organization (NGO) and professional body registered under the Societies Act, 1860 as resolved in one of the meeting held under the Chairmanship of the then Dy. Home Minister, Ministry of Home Affairs, Govt. of India Sh. B.N. Datar. IFE (I) is dedicated to the cause of fire engineers and fire engineering profession. The Graduateship Examination conducted by the Institution is recognized by the Ministry of HRD, Department of Education, Govt. of India for appointment to the post of Divisional Officer/Asst. Divisional Officer and below in Central and State Govts./Public Sectors and Local Bodies & Industries Fire Services.

### <u>Back Ground: -</u>

After independence in 1947 there was no recognized Institute for imparting training in the field of Fire Engineering and Fire protection Technology. Personnel engaged in Fire Services were acquiring professional competency by seeking membership of the Institution of Fire Engineers (UK) with a view to enhance their professional skills and qualification for promotional avenues for holding senior positions in fire services considering the dire need to trained qualified Fire Officers. The Government of India has set up National Fire Service College in the year 1956 under the Ministry of Home Affairs by introducing various Training courses for serving Fire Service Professionals and also fresh candidates in Sub. Officer Course for induction in Fire Services.

Due to fast Industrialization and rapid increase in Fire hazards the NFSC could not cope up with increasing demands to impart professional training to fire professionals at various levels. The idea of setting up Institution of Fire Engineers (India) on the lines of IFE (UK) was eventually mooted in one of the meetings of the Standing Fire Advisory Council setup under the MHA to provide qualified Fire Officers for the Fire Services in our country. Way back in the year 1973 a group of officers heading various Fire Services in the country founded this Institution and got it registered under Societies Act 1860.

### Management: -

The affairs of the Institution are managed by the Executive Council headed by a President and 17 elected members. General Secretary functions as Executive for running the affairs under the guidance of the Council.

The main objectives of the Institution in force are as under: -

- Conduct graduateship examination, which is recognized by Government of India.
- Publishing quarterly technical journal "Fire Engineer".
- To associate with all organizations engaged in Fire Protection work and making significant contribution in promoting Fire Engineering Science.
- Organizing Conferences and Seminars and Training Workshops as well as Exhibitions.
- Rendering technical advice on any specific problem related to Fire & Life Safety.

• To take-up assignments to evaluate Fire Risks to carryout Fire Safety Audit and to provide Fire Protection Scheme of Industries and Commercial complexes.

IFE (I)

• To conduct training programme for various levels and to conduct coaching classes, to prepare students for various Fire Service Examinations.

- To fulfill the objective of propagating and spreading the knowledge & education in the field of Fire Sciences, the Institution organizes, International & National Conferences, Seminars & Workshops.
- Member Bureau of Indian Standards, Technical Committees such as CED 22, CED 36 & CED 46 for preparing BIS Standards.
- Member National Fire Protection Association, USA

# INCREASE YOUR CHANCES OF SAVING LIVES

Saving lives during an outbreak of fire isn't a child's play. The lives of the firefighters are always on the line and they need to be well-equipped. To help them rescue the stranded victims easily, FLIR brings K2, a high-quality thermal imaging camera. FLIR K2 is designed specifically for critical conditions like fire outbreaks and it enables firefighters to view through huge flames and thick smoke.
